

CD for 10th anniversary of Tupac's death

One of DJ Raoul Juneja's charity projects is a tribute CD called *Dare 2 Struggle* on American label First Kut.

It was produced with rapper Tupac Shakur's imprisoned adoptive father, Mutulu Shakur, in remembrance of the 10th anniversary of Tupac's death.

The CD pays tribute to political prisoners — including Mutulu, a former Revolutionary Action Movement member in the '60s. Half of the proceeds go to inner-city health and education initiatives.

The CD includes a mélange of songs featuring rappers from Out-

Poster calling for Mutulu Shakur's release from prison.

lawz to Imaan Faith, along with some who are in U.S. prisons.

"(In prison) he tries to teach these kids that even if you come from a gang life mentality, it's not too late to change," explains Juneja.

The DJ is organizing an anniversary party in Tupac's remembrance that will take place in Las Ve-

gas with Tupac's friends and family.

"If you have this anger towards what you've been raised in, whether poverty or violence, let's just try and channel it through the music."
